VISORS SUITABLE FOR OPEN FACE JET STYLE HELMETS

THE 5 STUD WRAP ROUND VISOR

(ORDER PART NUMBER BHV 001 OR 001A)

**AVAILABLE IN CLEAR OR SMOKE TINTED
1.0MM ABRASION RESISTANT LEXAN®
OFFERING 97% - 100% UV PROTECTION**
The 5 stud wrap round visor is a classic fixed type Universal visor that will fit most 5 Stud open face helmets. Double action peak studs allow the re-fitting of a peak if required.

THE JET STUD 3 STUD

(ORDER PART NUMBER BHV JET3)

**AVAILABLE IN CLEAR,
SMOKE OR GRADIENT TINTED
2.0MM ABRASION RESISTANT LEXAN®
OFFERING 97% - 100% UV PROTECTION**

The Jet 3 stud visor is a classic fixed type visor that will fit most open face helmets with 3 Studs only. Double action peak studs allow the re-fitting of a peak if required.

JET FLIP RATCHET VISORS

**Available in three sizes – SMALL, LARGE AND XL
OFFERING 97%- 100% UV PROTECTION**

Product Order Code	All to BS4110ZA (with Peak as shown)
JFS	Jet Flip Small Clear
JFSK	Jet Flip Small Smoke
JFSGR	Jet Flip Small Gradient
JFL	Jet Flip Large Clear
JFLK	Jet Flip Large Smoke
JFLGR	Jet Flip Large Gradient
JFXLC	Jet Flip Extra Large Clear
JFXLK	Jet Flip Extra Large Smoke
JFXLGR	Jet Flip Extra Large Gradient

Advising on the suitability and correct size of the Jet Flip required can be difficult as no two helmet brands use the same shell or position there studs on the shell in any standard way. Below is some information that may be of assistance.

Small fits Helmets with small circumference shells such as: **DAVIDA 91, THH-T381-SMALL, ARAI FREEWAY-SMALL&MEDIUM, SPADA SMALL&MEDIUM**

Large fits Helmets with Large circumference shells such as: **ARAI FREEWAY, DAVIDA JET, THH-T381-LARGE, SHOEI RJ ,BELL RT , V-Can V500,ETC.**

XL fits Helmets with Large circumference shells where the Peak studs are positioned high on the shell and the two outer top edge studs are higher than the centre stud such as: **CROMWELL SPECTRA, RAVEN, SPADA LARGE, JEBS GTO & THH T380 & T381-SIZE M, ETC.**

Due to the varying nature of Jet Style Helmets and their stud positions this list is not comprehensive and we recommend checking the fit of our Jet Flip on the Helmet to confirm compatibility.

TEAR OFF FILMS FOR FLAT FRONTED RACE VISORS**AVAILABLE IN CLEAR, LIGHT TINT AND DARK TINT**

(TEAR OFFS ARE DESIGNED FOR USE ON FLAT FRONTED RACE VISORS AND WILL NOT FIT CORRECTLY TO 3-D CURVATURE VISORS)

Most BHV clear tear offs are produced in packets of 10 clear films and made from high grade polyester, certain models can only be produced from premium grade polycarbonate and due to the high cost of this material these models are sold in packets of 5 films only – the right hand column below details the quantity per packet. All tinted tear offs are produced from polyester and sold in packets of 5 only.

Bulk packets of clear tear offs are available on request and are available in 30 per pack or 15 depending on material type.
